

Writing to the Log Tab

You can use the @echo client side command to write information to the Log tab.

```
@echo <message>
```

The message may contain [DbVisualizer variables](#), e.g. one of the predefined variables.

```
@echo Today is ${dbvis-date}$ and the time is ${dbvis-time}$
```

Variables can also be used to display values produced by [executing a function or stored procedure](#):

```
@call ${STATUS}||(null)||String||noshow dir=out}$ = "HR"."GET_STATUS"(1002);  
@echo STATUS: ${STATUS}$;
```
