

Evaluating the Pro Edition

The DbVisualizer Pro edition offers far more features than the Free edition. If you are using the Free edition, it is easy to activate a Pro edition evaluation to see if suits your needs:

1. Open **Help>Welcome...**

2. Choose **Evaluate DbVisualizer Pro** and click the link to request an evaluation license.

Evaluate DbVisualizer PRO

To get the most out of DbVisualizer, you should really be running the Pro edition.

For information about the differences between DbVisualizer Free and Pro, please visit the [features overview](#). The best way to understand the value of **DbVisualizer Pro** is to actually try it.

[Request an Evaluation License](#)

3. Enter your email address and click **Evaluate**
4. Click **Restart** when prompted after the activation of the evaluation.

If you start DbVisualizer with one of the bundled scripts rather than with the launcher, you need to manually restart DbVisualizer after the activation.
